EIA INSIGHTS November 27, 2019

Natural Gas

Withdrawal Near Expectations

The EIA reported a 28 Bcf storage withdrawal for the week ending November 22, 2019. The withdrawal was at the average for this week of the year and close to the average of expectations, 27 Bcf.

Storage at 3,610 Bcf is 556 Bcf above inventories for this time last year and 31 Bcf below the five-year average.

Weather forecasts will continue to be the main driver of prices and volatility.

To see what the FA platform can do for you sign up for a webinar and free trial on our website or contact one of our team members.

Benefits of FA:

- Easy to use, web-based and menu driven platform.
- Extensive history of data.
- Superior graphing capabilities
- Competitively priced.
