Net Long Positions of the Funds in Crude Oil

Latest CFTC Report

The CFTC Commitment of Traders Report as of Tuesday, January 21, 2020 shows the Non-Commercials Net Long Positions in WTI Crude Oil decreased during the week by 8,005 contracts to 528,423 contracts. 6,640 Long positions were closed and 1,365 new Short positions were added.

The decline this week in the Non-Commercials Net Long Positions is not as dramatic as the decline in the previous week. However, we expect continued decline with prices dropping, pressure by closing of long positions and the addition of new short positions.
